

Rubber Insulating Blanket

RUBBER INSULATING BLANKET

ORION'S Rubber Insulating Blankets are made of high quality elastomeric compound and comply with ANSI/ASTM - D1048 standards. Blankets are used to protect electric panels, switch cabinets, cables, switches, fuses, transformers, etc. Available with or without a slot.

CLASSIFICATION

ORION'S blankets provide greater durability, since they are of TYPE II: Resistant to Ozone (O3).
