Rubber Insulating Sleeves

Orion’s rubber insulating sleeves are especially made to protect the arms and forearms of workers. Sleeves are made of a high quality elastomeric compound and comply with ASTM D1051/NBR 10623 standards.

RUBBER INSULATING SLEEVES

The marking contains the following indications:
- Manufacturer’s name
- Type
- Class
- Size
- Standards
- Approval certificate number (C.A.)
- Serial number

Rubber Insulating Sleeves

CLASSIFICATION

ORION’S sleeves provide greater durability, since they are of TYPE II: Resistant to Ozone (O3);
- Ozone is a gas naturally found in the atmosphere (as the active form of oxygen that may be produced by an electric discharge, corona effect or ultraviolet rays). Its presence leads to faster deterioration of the product.

GRIPS AND BUTTONS

Rubber insulating sleeves are commercialized in large and mid sizes and come with grips and buttons for better attachment to the body.
